

Certified Hardware Asset Management Professional (CHAMP)

Přehled

Designed to address the numerous issues plaguing professionals in managing hardware assets, the IAITAM Certified Hardware Asset Management Professional (CHAMP) Course follows the lifecycle of IT hardware assets beyond the scope of the cradle to grave analogy and discusses the business practices that can best be used to manage those assets efficiently and cost-effectively. Emphasis is placed on identifying the policies that enhance lifecycle management. In general, policies are only effective if developed by a cross-section of the impacted departments, are reviewed frequently to remain current and are consistently communicated and enforced. The course is followed by a certification test for those that wish to achieve CHAMP certification.

Vzdělávací cíle

Students earning a CHAMP certification will see financial benefits of enhanced Hardware Asset Management best practices and uncover many savings opportunities to increase their organizations' bottom line by managing the lifecycle of the hardware asset. They will receive an awareness of several avenues for savings, compliance, global disposal and revenue generation practices for properly managing the lifecycle of hardware assets.

1 - Course Outline

- Basics of Hardware Asset Management
- The Power of ITAM Centralization
- Best Practices for Asset Standards
